

Project Risks and Issues

1. Risk, may not complete all functionality prior to demo on Friday 9th June 2017. Mitigation advise project sponsor of this risk and agree the lowest priority items that may not get into the final build.
2. Risk, migration to Heroku may not work as expected, mitigation advise project sponsor and get input from Jamie and Peter on Heroic migration as well as DB setup.
3. Issue, activities are taking longer than anticipated which have led to minor application design changes regarding how the Sell, Receipt and Amend screens are accessed. Discuss with Project sponsor and advise Jamie.
- 4.
